NANAWALE ESTATES SUBDIVISION,
Pahoa, HI

Two adjacent lots in a quiet corner of the subdivision that back up to large acreage could be the site of your new home.

Established fruit trees are producing. A carpet of perennial peanut groundcover reduces the need to mow every few weeks. Get a head start on your new adventure of homesteading in Hawaii!

A 20 foot shipping container is included to store your supplies out of the weather. Pull up some shade under the attached lean-to roof to relax and cool off.

The first lot is on the corner of Ginger Ln and Lehua Rd and backs up to a large acreage. The second, adjacent lot backs up to an even larger acreage. Both lots have mature and maturing fruit trees such as Ulu, Avocado, Cacao, Coconut, Banana and plenty of room remains to plant your favorite tropical fruit and nut trees.

Two TMKs are included in the sale, 3-1-4-79-1 and 3-1-4-79-2. Two transfer fees paid by buyer at closing and association dues are assessed on each lot. Build on one or both lots!
